

Brussels, 15 December 2021

2021/TD/64/FL

To :

Andrea Merli - FENEAL UIL

Marco Benati - FILLEA CGIL

Dear colleagues,

With this letter the European Federation of Building and Woodworkers (EFBWW) wants to express its solidarity and strong support with the general 8-hour strike that will take place on 16 December 2021 together with demonstrations in major Italian cities.

The EFBWW strongly supports the claims of the CGIL and UIL confederations concerning precarious and arduous forms of work, protecting jobs and fighting tax evasion.

Various important issues are tackled and deserve all support: improved industrial policies to tackle delocalization and de-industrialization processes; finding possibilities to recognize the arduousness of work in retirement schemes; eliminating precarious work; fighting tax evasion and ensure social inclusion.

The EFBWW wishes you all the best for your strike actions and success with achieving your claims.

In solidarity,
